**AND SMALL WONDER** . . . with so many colleagues out of civilian practice, the pace grows terrific. Ever-jangling telephone . . . calls piling on calls . . . sleep snatched when you can . . . and meals hastily eaten or missed.

Proper sleep and rest may be difficult to obtain. But you *can* make certain of more adequate nutrition through regular use of VI-SYNERAL as a supplement.

**VI-SYNERAL'S NEWLY INCREASED POTENCIES** assure a higher vitamin-mineral intake . . .

helping you meet grueling days in better health, hence with body more vigorous and mind more alert.

A great many physicians have voluntarily written us about the effectiveness of VI-SYNERAL, not only for their patients, but for themselves as well. Why not insure a greater vitamin-mineral intake for yourself, doctor?

As our contribution to help you meet the added strain of these times, we will send you a complimentary package of VI-SYNERAL upon request.

# VI-SYNERAL

FUNK-DUBIN

## Practical Hint for a Busy Practitioner!

For the patient complaining of vague symptoms which may be associated with nutritional deficiencies — VI-SYNERAL can supply the "extra" margin of vitamins and minerals often needed to help improve general well-being.

**VITAMINS: A-B<sub>1</sub>-B<sub>2</sub>(G)-C-D-E-Niacinamide**  
and small amounts of other B Complex factors.

**MINERALS: Calcium, Phosphorus, Iron, Iodine,  
Magnesium, Manganese, Copper, Zinc.**

In 5 distinct vitamin balances  
for each of the five age groups.

**COMPLIMENTARY FULL-SIZE PACKAGE . . .**  
Request on letterhead, mentioning this Journal.

# POLLEN ANTIGENS

*Lederle*

FOR COUNTLESS CENTURIES the sign of Aries (the ram) has ushered in the season of growing plants—warning of the inevitable pollen season in the months to follow.

No satisfactory cure for Hay Fever has yet been discovered, but it can often be prevented or alleviated by Pollen Antigen immunization in advance of the season.

"Pollen Antigens *Lederle*" are glycerinated extracts possessing adequate stability, prepared and standardized with great care in our laboratories. Their use during recent years, in all sections of the United States has given satisfactory relief in many thousands of cases.

Lederle literature on the various pollen antigens of the United States may help you solve some of your troublesome cases.

## A Sign of Strength . . . *to endure through changing times*

Consider the situation: Millions of women engaged in the heavier work of industrial jobs. Domestic help growing scarce so that even housewives work harder, longer. More maternity patients than in any time during the last two decades.

Result: More and more physicians are recommending Camp Scientific Supports according to the needs of the particular condition.

Easy to see why the symbol of Camp service is today more important than ever.

*It assures doctors that every prescription for a Camp support will be filled exactly as ordered . . . by an expert, specially trained by the Camp organization.*

*It means that patients will find the prescribed garment available for immediate use, and at moderate prices.*

Today, this responsible Camp service is a bulwark for physicians. For in an increasingly unstable field, it is filling a growing need unflinching.

**HERCULES**

*was a*

*Piker!*

HERCULES made his reputation through twelve great feats of prowess. Yet how much greater is the power of those microscopically minute organisms that bring illness and death to mankind! Greater still, is the strength of the sulfonamides that hold many virulent pathogenic organisms in check.

The sulfonamides have proved their worth and their use has become well-established in military, industrial and civilian practice. New methods of application are being studied—new products are being developed—new techniques are being evaluated.

The Squibb Laboratories have available an extensive line of the sulfonamide

compounds. There are several new dosage forms under laboratory and clinical investigation, which are being provided as the need arises and results prove favorable.

When you think of Sulfonamides think of Squibb.

*Macy's Prescription Departments*

The art of fitting and building shoes like many another art, is widely practiced but only rarely mastered.

Here, this art has been practiced for over 60 years with the close co-operation of the medical profession. When such an august body of men recognizes Braverman as an outstanding institution, then perhaps we have the use of the "master" rightfully applies.

A fully equipped Custom Department is maintained to construct special shoes and make corrective alterations.

# The doctor\* oughta know about this...

WITH an empty Karo bottle, the baby has a right to complain. And perhaps, Doctor, so have you. We admit that occasionally grocers do not have Karo syrup.

The situation is this: The great demand for Karo by the armed forces and a huge increase in domestic needs so tax our capacity that we are not always able to keep all grocers supplied.

We cannot step up quantity any further without letting down on quality and this we will *never* do.

If any patient complains that she is unable to obtain Karo for her babies, please tell her to write us direct, giving us the name and address of her grocer and we will promptly take steps to provide this grocer with Karo.

CORN PRODUCTS REFINING COMPANY

17 Battery Place, New York, N. Y.

\* INCIDENTALLY, Doctor, Red Label Karo and Blue Label Karo are interchangeable in standard feeding formulas. Their chemical composition is practically identical; their caloric values are equivalent. So if your patients cannot get the flavor you prescribe, please suggest that either Blue or Red Label may be used.

Almost half a century ago, Arthur Nicolaier discovered that the chemical known as hexamethylenetetramine possessed valuable therapeutic properties. Since then this drug, still identified as the S. & G. brand of methenamine under its original name of Urotropin, has continued to give satisfactory performance as a urinary antiseptic.

Published clinical reports indicate that Urotropin continues to serve the medical

profession well in the treatment of pyelitis, cystitis and other urinary infections. Perhaps not infrequently it has been responsible for effective action when other measures have failed, all of which would suggest that Urotropin is as deserving as any of the newer products to hold a place in modern therapeutics.

Perhaps you would like to verify these facts. A trial supply for that purpose is at your disposal; please write us.

**I**N operative procedure, when capillary oozing continues after all larger vessels have been ligated, KOAGAMIN has shown a dramatic clinical effect.

KOAGAMIN is a safe, reliable, inexpensive and almost instantly effective hemostatic for intravenous or intramuscular injection. It is used extensively preoperatively as a prophylaxis and postoperatively to control excessive and prolonged bleeding.

*Full information on request.*

**CHATHAM PHARMACEUTICALS, INC., NEWARK, N. J.**

---

## *Exigency of War*

---

OLEUM PERCOMORPHUM 50% is now known as Oleum Percomorphum 50% with Viosterol. This product consists of the liver oils of percomorph fishes, viosterol, and fish liver oils, a source of vitamins A and D in

which not less than 50% of the vitamin content is derived from the liver oils of percomorph fishes (principally *Xiphias gladius*, *Pneumatophorus diego*, *Thunnus thynnus*, *Stereolepis gigas* and closely allied species).

In compliance with War Production Board Order L-40, to conserve vitamin A supplies during war-

time, capsules of Mead's Oleum Percomorphum 50% With Viosterol now contain 83 mg. of oil, equivalent to 5,000 vitamin A units and 700 vitamin D units per capsule.

The new size capsule is now supplied in boxes containing 48 and 192 capsules—about twice the number of capsules without increase in price to the patient.

---

**Contrary to rumors, the potency remains the same; namely 60,000 vitamin A units and 8,500 vitamin D units per gram.**

**MERCK**  
**CONTRIBUTIONS**  
 IN THE  
**VITAMIN**  
**FIELD**

**E**VER SINCE Ascorbic Acid was synthesized in 1934, the name Merck has been identified with leadership in the synthesis, development, and production of pure vitamins.

In 1936, Thiamine Hydrochloride was synthesized in the Merck Research Laboratories, and this achievement was followed, in 1938, by the chemical identification and synthesis of Alpha-Tocopherol by Merck chemists and their collaborators in other laboratories. In 1939, Pyridoxine Hydrochloride was synthesized in the Merck Research Laboratories, and in 1940 Merck chemists and their collaborators succeeded in identifying and synthesizing Pantothenic Acid.

Thiamine Hydrochloride, Riboflavin, Nicotinic Acid, Nicotinamide, Pyridoxine Hydrochloride, Calcium Pantothenate Dextrorotatory, Ascorbic Acid, Alpha-Tocopherol, Vitamin K<sub>1</sub>, and Menadione are all being produced in commercial quantities in the Merck factories.

**D**ISCOVERIES and advances in the vitamin field made by Merck chemists and their collaborators indicate the leading rôle played by Merck & Co., Inc., as manufacturer of these therapeutically important substances.

Merck & Co., Inc., manufactures all of the vitamins which are now commercially available in pure form, with the exception of vitamins A and D. Literature on the vitamins mentioned above will be mailed on request.

# WALKER-GORDON OFFERS an almost sterile milk ...Certified-Pasteurized!

AS YOU PROBABLY KNOW, Walker-Gordon Certified is generally accepted as the world's finest milk.

And now—at no extra cost—your patients can buy Walker-Gordon Certified-Pasteurized . . . a milk that is practically sterile!

In these times, when every-other-day

milk delivery is being put into effect in many cities, the keeping quality of milk is vitally important . . . to physicians, mothers, and health authorities.

That's why the Boston Health Department made the following test, which proved that the purity of Certified-Pasteurized is little short of miraculous:

## GROWTH OF COLONIES OF BACTERIA FROM A CUBIC CENTIMETER OF MILK

TYPE OF MILK	NO. OF SAMPLES		NO. OF COLONIES					
			ON DELIVERY	1 DAY	2 DAYS	3 DAYS	4 DAYS	5 DAYS
				AT 40°F.	AT 40°F.	AT 40°F.	AT 40°F.	AT 40°F.
Certified-Pasteurized	22	Maximum	20	40	100	850	1000	1400
		Minimum	0	4	5	8	15	20
		Average	8	14	44	157	286	770

• IN DISCUSSING THIS TABLE, the chemists stated that *even after ninety-six hours in the refrigerator*, Certified-Pasteurized still "conformed to the bacterial standards and was perfectly safe for use as measured by present knowledge of the subject."

The report . . . the complete results of which appeared in the *New England Jour-*

*nal of Medicine* . . . was made by the Laboratory for Chemistry and Sanitary Biology, Boston Health Department. If you'd like to have a reprint of the entire study, write to Walker-Gordon, Inc., Plainsboro, N. J.

There simply isn't any purer, more healthful, or better-tasting milk!

*"This pause  
that refreshes  
is a  
real idea!"*

Safeguarded constantly by scientific tests, Coca-Cola is famous for its purity and wholesomeness. It's famous, too, for the thrill of its taste and for the happy after-sense of complete refreshment it always brings. Get a Coca-Cola, and get the feel of refreshment.

**THE PAUSE THAT REFRESHES**

*Formerly at  
3rd Ave. and 18th St.*

Registered pharmacists in this prescription laboratory have one and only one duty—to compound prescriptions according to the most modern methods of the Science of Pharmacy and in keeping with the professional standards of Medicine.

*Special Laboratory for  
Ophthalmic Prescriptions*

Most complete stocks of prescription components are on hand including those new and unusual drugs and chemicals not found in the ordinary drug store.

*Physicians are invited to inspect this modern prescription laboratory.*
